Career Objective

Enthusiastic and detail-oriented MERN Stack Developer skilled in building scalable, user-friendly, and high-performance applications. Strong foundation in backend services, responsive UI, and database optimization. Passionate about problem-solving, with 150+ LeetCode solutions and proven ability to deliver impactful projects in collaborative environments.

Technical Skills

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Microservices

Databases: MongoDB, Mongoose, MySQL, Query Optimization

Languages: JavaScript (ES6+), C++, Python, SQL

Tools: Git, Postman, Docker, VS Code,

Experience

Inventurs

Backend Developer intern

Aug 2025 – Nov 2025

- Contributed to the FASTag project, developing and integrating APIs to support seamless toll and payment services.
- Worked on the MaaBharti project, building service APIs and ensuring smooth API integrations with third-party systems.
- Designed and deployed multiple RESTful APIs, ensuring scalability, security, and high performance.
- Collaborated with team members to implement backend solutions and troubleshoot integration issues, improving system reliability.

Sree Aaraviraj Pvt. Ltd. (Inser Technology–Sayonara)

Backend Developer Intern

Jan 2025 – Apr 2025

- Developed full-stack modules for internal dashboards using React (frontend) and Node.js/Express (backend).
- Boosted API performance by optimizing queries and implementing caching strategies, improving load time by 35%.
- Collaborated in agile sprints with cross-functional teams to ensure on-time feature delivery.

Key Projects

Your Estate Platform: MERN, Firebase, Cloudinary

- Designed a property platform with advanced filters, responsive dashboards, and secure authentication.
- Integrated Google OAuth, Cloudinary for optimized image uploads, and role-based access control.
- GitHub:** [real-estate-app](#)

Video Fetcher Backend: Node.js, YouTube API, Docker

- Engineered a backend service for fetching/storing YouTube videos using cron jobs.
- Built paginated, searchable APIs with Dockerized deployment for seamless scalability.
- GitHub:** [video-fetcher-backend](#)

Education

IES IPS Academy, Indore

B.Tech – Computer Science

CGPA: 7.0 / 10

2020 – 2024
